BLOOMING SHOWER

LA DOCCIA COME SCENOGRAFIA

La doccia è un gesto quotidiano capace di far rifiorire energia, leggerezza e armonia.

Blooming Shower racconta una nuova idea di benessere, dove il box doccia diventa presenza scenica, elemento architettonico capace di trasformare lo spazio e valorizzare il rito della cura di sé.

I box doccia DIVINA nascono dall'incontro tra estetica evoluta, materiali d'eccellenza e funzionalità impeccabile. Soluzioni personalizzabili, affidabili e facili da vivere, pensate per adattarsi a esigenze, stili e progetti diversi.

Per una doccia che diventa esperienza: privata, rigenerante, profondamente personale.

Showering is a daily ritual that helps restore energy, lightness, and balance.

Blooming Shower embodies a new vision of well-being, where the shower enclosure becomes a scenic presence - an architectural element capable of transforming a space and enhancing the ritual of self-care.

DIVINA shower enclosures are born from the meeting of refined aesthetics, premium materials, and flawless functionality. Customizable, reliable, and effortless to live with, they are designed to adapt to different needs, styles, and design projects.

For a shower that becomes an experience: intimate, rejuvenating, and deeply personal.

KALOS

I piatti doccia Kalos sono realizzati in materiale composito ad alte prestazioni, costituito da una matrice a base di cariche minerali naturali ad elevata densità, legate mediante una ridotta percentuale di resine poliestere. Questa formulazione conferisce al manufatto elevate caratteristiche di stabilità dimensionale, resistenza meccanica e durabilità nel tempo garantendo elevata qualità estetica e versatilità progettuale.

Kalos shower trays are manufactured from a high-performance composite material consisting of a high-density natural mineral filler matrix bonded with a low percentage of polyester resins. This formulation provides excellent dimensional stability, high mechanical strength, and long-term durability. The surface is available with a matt finish ensuring high aesthetic quality and design versatility.

DIAMO FORMA AL TUO SPAZIO DI BENESSERE

" Un luogo da progettare. Un'esperienza da vivere. La tua doccia, nella sua forma più DIVINA. "

La doccia è molto più di un gesto quotidiano.

È il luogo in cui il tempo rallenta, l'energia si rinnova e il benessere ritrova la propria dimensione più autentica.

DIVINA nasce da questa visione: trasformare il box doccia in un elemento capace di dialogare con l'architettura, interpretare lo stile di chi lo vive e rendere speciale ogni momento dedicato a sé.

Disegniamo soluzioni in cui estetica e funzionalità si incontrano con naturalezza. La trasparenza del cristallo, la precisione dei profili, la qualità delle finiture e la fluidità dei movimenti diventano parte di un progetto coerente, curato in ogni dettaglio.

Ogni ambiente è diverso. Per questo le collezioni DIVINA offrono configurazioni, aperture, misure e finiture pensate per adattarsi a spazi ed esigenze differenti: dalle composizioni essenziali e leggere alle soluzioni dalla presenza più decisa, fino ai modelli progettati per valorizzare anche gli ambienti più raccolti.

BELLEZZA DA VIVERE, OGNI GIORNO

Per noi il design non è soltanto ciò che si vede.

È semplicità di installazione, affidabilità nel tempo, facilità di utilizzo e cura quotidiana. È la sicurezza di scegliere un prodotto pensato per essere bello oggi e piacevole da vivere a lungo.

SHAPING YOUR PERSONAL SPACE OF WELL-BEING

" A place to design.
An experience to live.
Your shower, in its most DIVINA form. "

A shower is much more than an everyday gesture.

It is a place where time slows down, energy is restored and well-being finds its most authentic dimension.

DIVINA was born from this vision: transforming the shower enclosure into an element that interacts with architecture, reflects the style of those who experience it and makes every moment of self-care feel special.

We design solutions where aesthetics and functionality come together naturally. The transparency of glass, the precision of the profiles, the quality of the finishes and the fluidity of every movement become part of a coherent project, carefully considered down to the smallest detail.

Every space is different. This is why DIVINA collections offer configurations, opening systems, dimensions and finishes designed to meet a wide variety of requirements: from light, essential compositions to solutions with a stronger visual presence, including models created to enhance more compact interiors.

BEAUTY DESIGNED FOR EVERYDAY LIVING

For us, design is not only what you see.

It means easy installation, long-lasting reliability, effortless use and simple everyday care. It is the confidence of choosing a product designed to look beautiful today and remain a pleasure to live with over time.
